CAREER DEVELOPMENT: 2016-17

This report provides a review of aggregate and specific employment data, as well as advanced degree information, for our 2016-2017 graduates. (For a review of Career Development activity and assessment information, see our corresponding Annual Report). The information is based on follow-up contacts from May to December through survey, email, telephone, and texting. We reached 99% of our graduates, but received post-graduation information from 86%.

This included:

- Communicating by email with all graduates who expressed need for job search assistance
- Contacting graduates who indicated that they were seeking employment, but did not specifically request assistance
- Contacting graduates who provided no post-graduation employment or graduate school information

BLANK ROWS IN MAJOR REPORTS

Many of the rows for some majors are missing information. Career Development was either unable to contact those graduates, or the graduates did not respond to our emails, texts, and telephone calls.

FIRST DESTINATION AFTER GRADUATION

After completing our alumni follow-up contact, we compiled 6-month information on our traditional graduates. Our knowledge rate was 86%; we did not receive information for 67 graduates.

- 76% were *employed in career-related positions* [we call this “Employed”]
- 20% were *accepted to advanced or additional degree programs* [we call this “School”]
- 2% were *not seeking employment* at this time
- 2% were *seeking employment*

(See details below, and graphs on page 4)
